CHAT-2-EARN

RAID-2-EARN

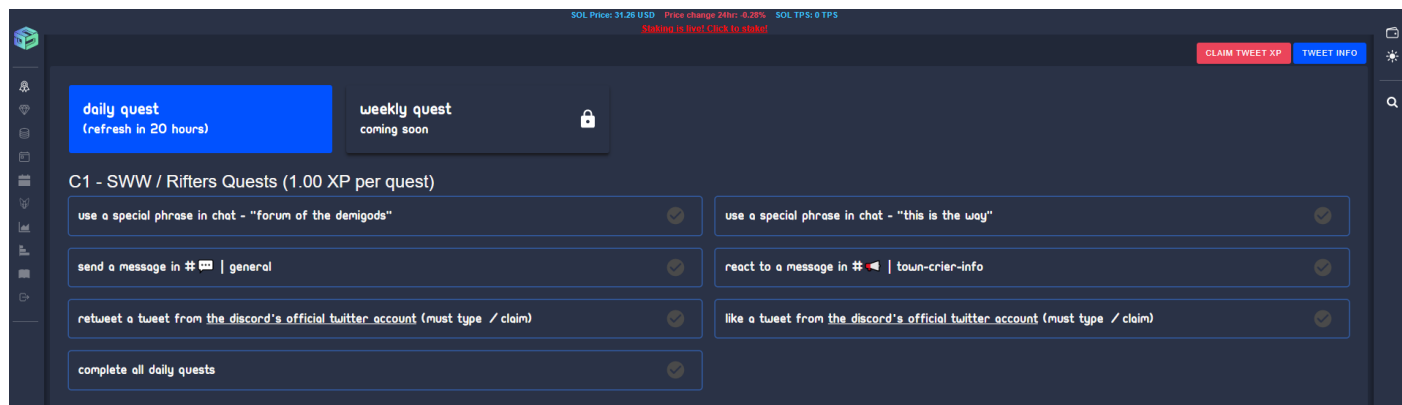

- When a new user sign up for this, they must link their Twitter with their Discord in [Sol Decoder's Website](#)
- Like and Retweet your DAO's official twitter and you will receive XP, and complete two daily quests

DAILY QUESTS

Get extra XP by complete quests such as:

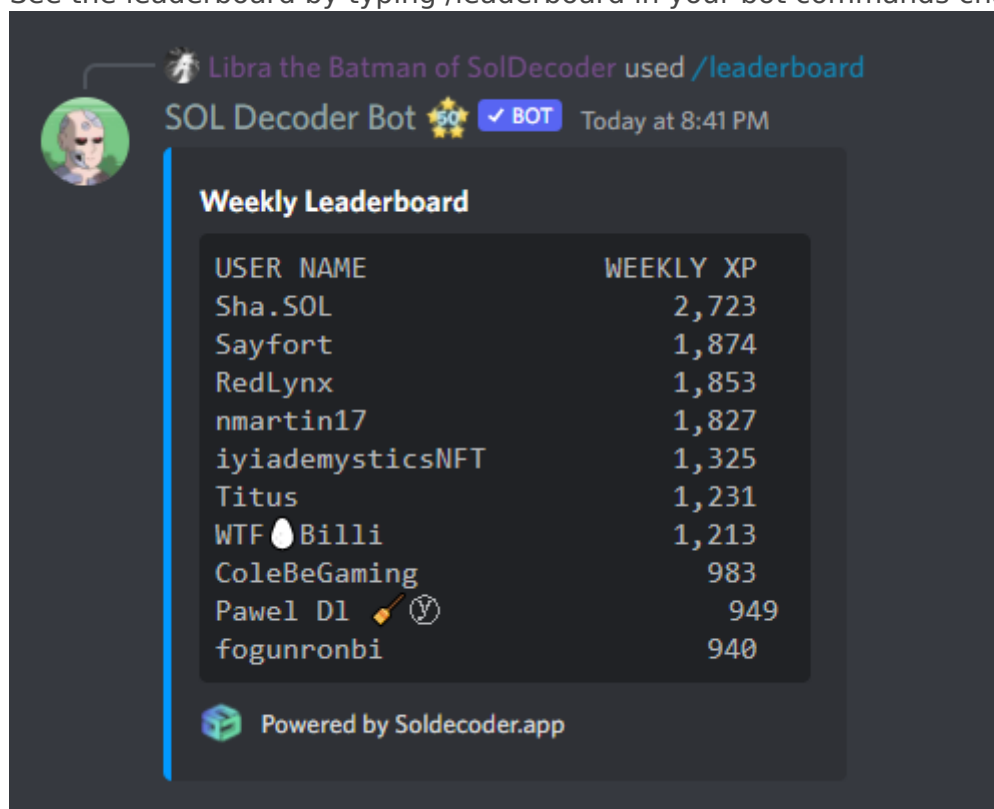

- Reacting to an Announcement

- Send a specific message in chat, and also chatting once per day
- Liking & Retweeting tweets

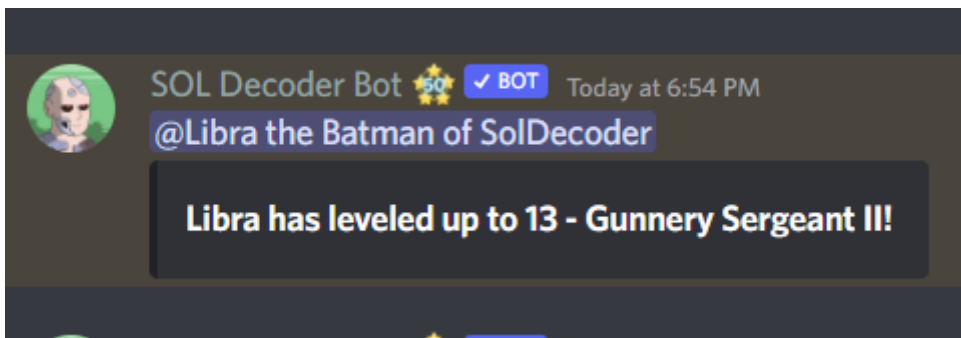

COMPETE with others and be rewarded:

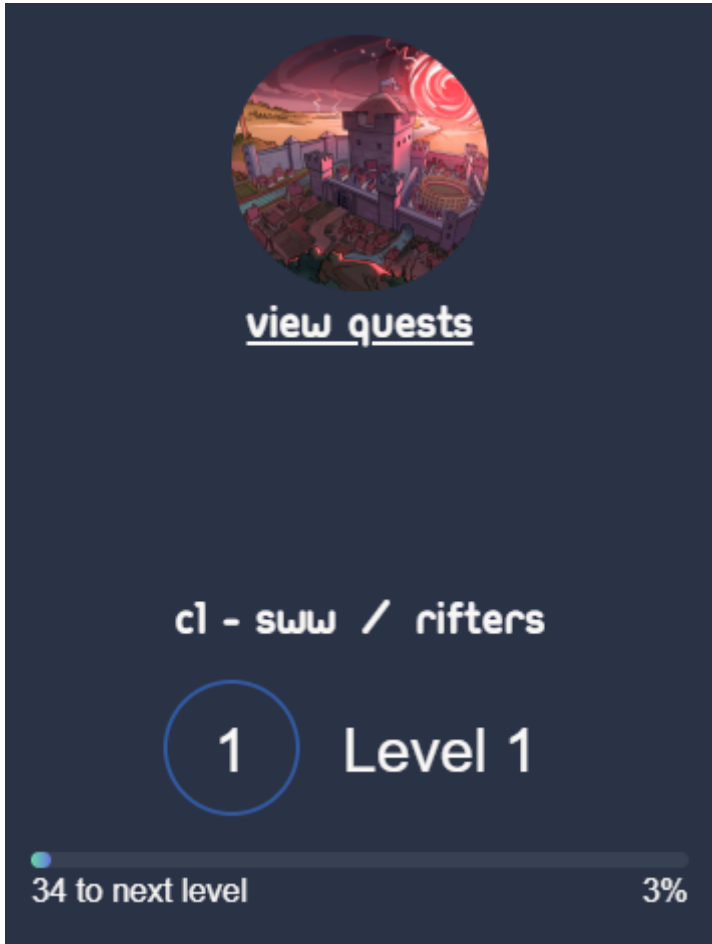

- XP is fed into a weekly leaderboard (for each unique Discord that uses it, and a global leaderboard across all Discords)
- See the leaderboard by typing /leaderboard in your bot commands channel

- Get enough XP and you'll "level up" (gain a role in this Discord). If you level up again, you will lose the previous role, and gain the next role
- Many Discords using this have 50 roles to level up to, with each new level having its own icon. Compete against others to be the highest rank!

- You can check your Level either in the Discord or on our website at <https://soldecoder.app/quests>

- Use this in a new Mint server and automatically get awarded whitelist for engaging!

FAQ:

I can't sync my Twitter XP

Go to the twitter account your Discord has, and like / retweet their most recent tweet (not a retweet, and not a quote retweet).

Go to <https://soldecoder.app/quests> and login with your Twitter.

Click the "Claim Tweet XP" button at the top, or go to the bot command channel in your Discord and type /claim.

Other restrictions:

- Only the last 4 day's of tweets work
- Only tweets made since the Discord enabled the engage-2-earn package work
- Only actual tweets work (not a retweet, and not a quote retweet)
- It only pulls your last 25 likes, and last 25 retweets. If you spam like/retweet while scrolling down the twitter feed and going back in time by a few weeks, then it won't pick up the recent tweets so nothing will count
- For the daily quests, if you want complete them everyday then the Twitter has to tweet everyday
- liking / retweeting only counts once

My Twitter XP still doesn't work
