1. Introduction to QuipLash

QuipLash is a comedic "fill-in-the-blank" game where players answer humorous prompts with their most creative, outrageous, or silly responses. The kicker? It's your friends who vote on the best answers. So, you're not just playing to win, but to make everyone else laugh!

QuipLash on Discord takes this experience online, allowing you to play with friends and community members no matter where they are in the world. Let's get you started, shall we?

2. Getting Started

To begin, you'll need to have the SOL Decoder Bot added to your Discord server and OpenAI Premium enabled. Don't worry, it's as easy as pie, and twice as tasty!

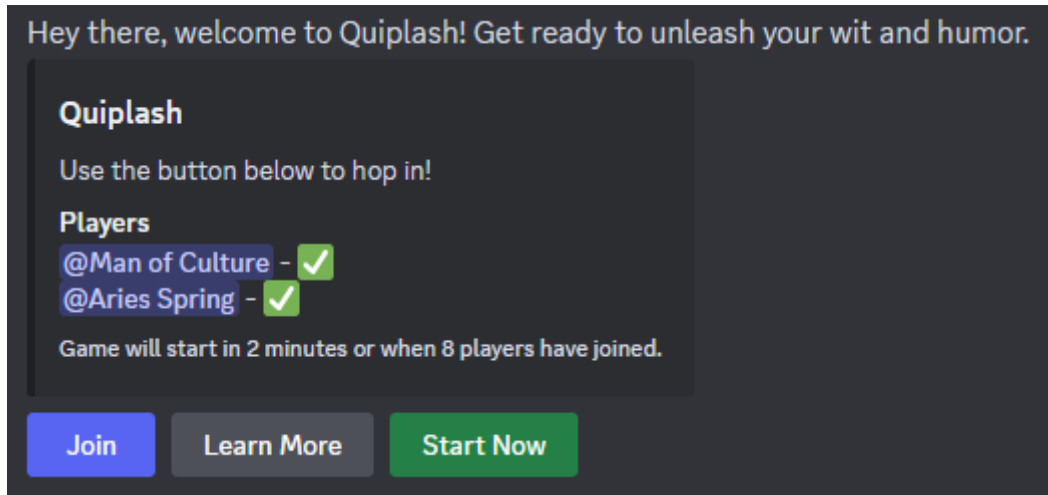

1. Click on the link provided on DAO page to invite the bot to your server.
2. Select the server you want to add it to from the dropdown menu.
3. Click on 'Authorize' to finish the process.

Voila! You've now got your personal humor assistant ready and waiting.

3. Game Setup

Setting up a game of Quiplash on Discord is as easy as telling a knock-knock joke!

1. Open the text chat where you want to host the game.
2. Type the command `/quiplash` to initialize a new game.
3. A message will appear inviting players to join the game. They can join by simply tapping the "Join" button.

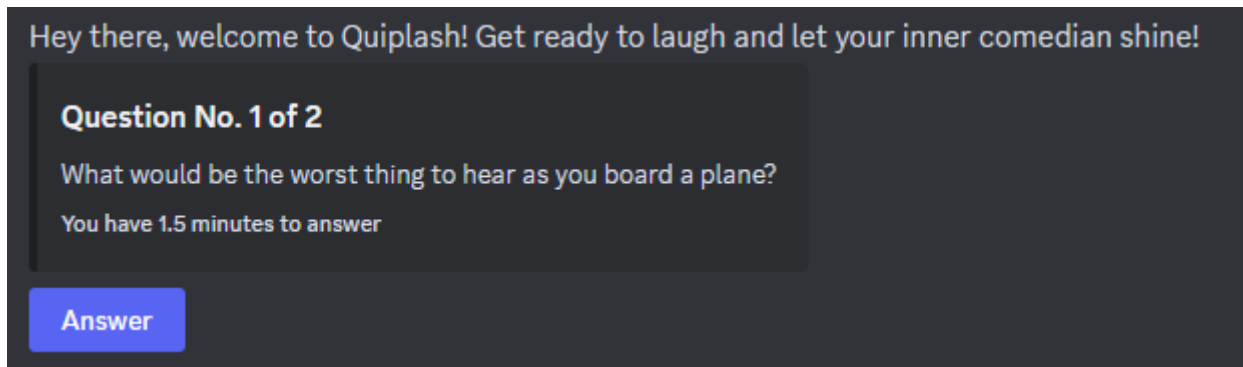

And just like that, you're ready to roll!

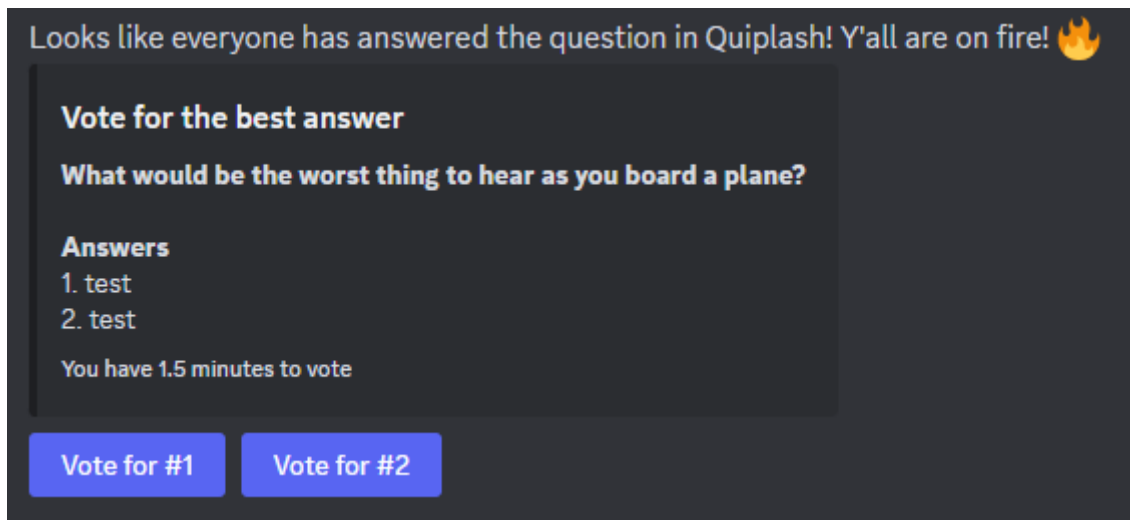

4. How to Play

Ready to unleash your inner comedian? Here's how you play Quiplash on Discord:

1. Every round begins with a question, tap on the "Answer" button to open the answer modal.

2. Players must fill answer with something clever, funny, or downright ridiculous.
3. As responses roll in, they'll be shared anonymously in the public embed.
4. Everyone votes for their favorite answer for each prompt (except their own, no self-love here!)

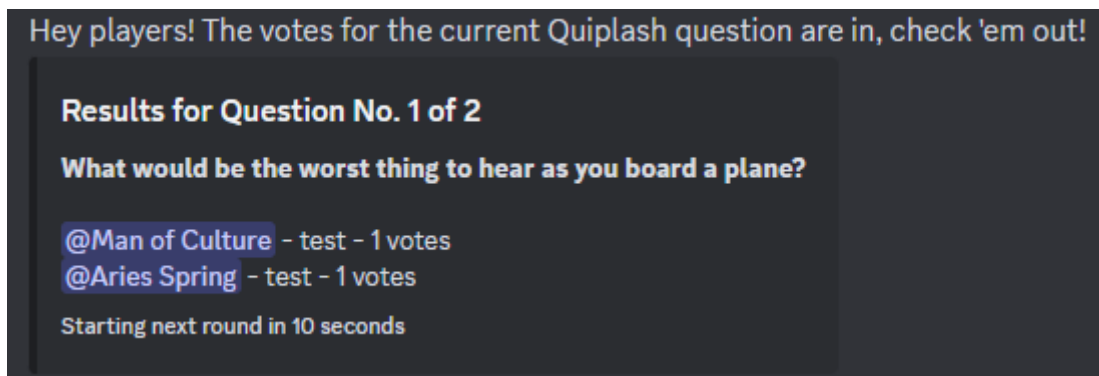

5. Rinse and repeat!

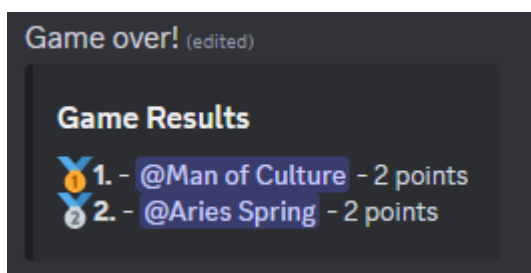

5. Scoring and Winning

A game of Quiplash isn't just about the laughs—it's about the glory of victory!

1. Each player's answer earns points based on the number of votes it receives. Sorry, folks, voting for yourself won't earn you points, so save those votes for the genuine belly-laughs!
2. The player with the most points at the end of the round wins that round.

3. After a pre-set number of rounds, the player with the highest total score wins the game and takes home the coveted title of "Quiplash Champion" (and bragging rights until the next game, of course).

6. Tips and Tricks

Want to maximize your chances of becoming the Quiplash Champion? Here are some friendly tips:

1. **Know your audience:** The funniest answer is subjective, and the best strategy is to play to the humor of your fellow players.
2. **Be unexpected:** Surprise is the soul of wit, so don't be afraid to get creative with your answers.
3. **Don't hesitate to be a little silly:** Quiplash is all about fun, so leave your inhibitions at the door.

7. Troubleshooting

Experiencing hiccups? Don't worry, we've got you covered.

1. **Bot not responding:** Make sure the bot has the necessary permissions in your server. If the problem persists, try kicking and re-inviting the bot.
2. **No prompts received:** Check your Discord privacy settings to ensure you can receive messages from bots.
3. **Can't vote:** Ensure you're not trying to vote for your own answer (we see you!).
